World Class Service and Value

Merchant Credit Processing upholds our position
as the "partner of choice" to businesses big
and small who value comprehensive point-of-sale
solutions to improve their bottom line.

Safe, Secure, Reliable Products & Services

Merchant Credit Processing Merchant Services

Merchant Credit Processing Merchant Services

Value-Added Products & Services

Consumers want to use their credit cards for virtually every purchase. In fact, customers are starting to expect all businesses to accept credit cards regardless of the sale amount. Is your business losing out on potential sales?

Whether your business has just opened its doors, is already well-established or looking for ways to grow, Merchant Credit Processing can provide innovative, cost-effective and secure products and solutions to best suit your needs.

Merchant Credit Processing has the unique ability to process payments through three best-in-class platforms, we can provide your business with a wide array of point-of-sale (POS) solutions.

We give your business the flexibility to accept all major credit and debit cards, including, Visa®, MasterCard®, Discover®, American Express® and JCB®.

We help businesses like yours, take advantage of our industry specific suite of electronic payment solutions to accelerate cash flow, reduce operating costs, increase client acquisition and retention, and grow their business.

Trust. No matter what type of business you run, you must rely on the integrity, strength and ability of your business relationships.

Credit Card Processing

Businesses accepting credit cards for payment purchases have seen increased revenue by more than 30% in a year. With WBS, you can accept nearly any card your customer carries today.

Debit Card Processing

Debit card use is sky rocketing as more customers are discovering their convenience and more merchants are discovering the potential savings over alternative payment methods. We offer pin based debit card services for less than the competition.

EBT Card Processing

WBS has partnered with one of the country's largest third party processors for EBT and supports programs in all the major EBT states. Customers that use government program cards such as Social Security, and state issued food stamps will be able to shop at your store.

ATM Processing

With one of our ATMs, you should see an increase in customer spending and satisfaction, fewer bad checks and lower credit-card fees. We're a full-service company that handles installation, service, repair and transaction processing.

Merchant Online Reporting

Stay on top of your processing activity using our merchant online reporting system. Enjoy account and terminal information, online support, statements, and detailed transaction reporting.

Free Virtual Terminal Service

Get a web-based application that lets you authorize, capture, and settle your payments. Our Virtual Terminal offers you the basic processing of a physical point of sale terminal through your Internet browser. This provides our merchants reliable, seamless connectivity for automated and secure transaction processing.

Electronic Check Conversion

Need to verify that your checks are good right on the spot? Our eGold program will verify, convert, and guaranty your checks through a check reader terminal. Accept a check as if it were a credit card! Simply swipe the check through your check reader and the money will be electronically deposited into your checking account within 48 hours and never come back out, even if the check is NSF. We offer this service for a flat 1.49% plus 25 cents.

Check Verification

Check Verification is a process that screens checks and check writers against a "negative database" of "bad check writers". This is done at the point of sale when the customer presents a check as payment. This service is performed using a point of sale terminal (or a real-time internet process) to access one of these large negative databases and compare the new transaction against the list. If the customer has a history of bad checks, the transaction will be declined.

Checks by Phone/Web

Merchants are provided the capability of accepting and processing checks over the web. The consumer is able to initiate a check payment on the merchants website or payment gateway Checks by Phone Enables merchants to accept and process checks from customers over the phone.

ACH Debit Transactions

Process ACH debit transactions from the checking account of consumers or businesses if merchant receives written authorization. SINGLE BILLING: process a one-time debit. AUTOMATIC RECURRING BILLING: process debits on a regular basis. Debits can be setup to occur automatically on scheduled dates.

PrePaid Visa/Mastercard Debit Cards

No credit check. No bank account required. It's a Debit MasterCard® or Visa® debit card personalized with your name. Use it Everywhere MasterCard or Visa debit cards are accepted. Shop online, pay bills and get cash at ATMs.

Merchant Cash Advance

In today's economy, it is difficult to qualify for a business loan. We provide quick and simple alternative financing solutions for your businesses working capital needs. Even if you have been denied a small business loan, you may still qualify for a business cash advance.

Unlike typical bank loans, cash advances, offer businesses working capital based on future credit card sales. We provides high approval rates, flexible repayment process, and minimal credit requirements. You can access immediate unsecured funding from \$10,000 to \$300,000 or more upon approval.

Gift and Loyalty Cards

Paper, or Plastic? These days, consumers prefer plastic. So fulfill your customer's demand, and replace those old-fashioned, paper gift certificates with plastic gift cards today! Already throughout the retail industry, merchants are issuing their customers gift cards, and to keep your business competitive, you should do the same.

Employee Payroll Cards

WBS payroll card program allows you to send money to your affiliates, members, clients, and employees. Debit cards and prepaid credit cards with fast and easy pay-outs will make payments simple for everyone involved. In addition, this money transfer option can considerably reduce your administrative expenses.

World Class Customer Service & Support

Merchant Credit Processing
Merchant Services

Merchant Credit Processing Merchant Services

Consumers want to use their credit cards for virtually every purchase. In fact, customers are starting to expect all businesses to accept credit cards regardless of the sale amount. Is your business losing out on potential sales?

At Merchant Credit Processing, we want to provide you with the best payment processing solution for your business.

We offer a variety of merchant services and merchant accounts that will allow you to accept credit card payments - economically and with low fees, great rates and excellent service. Our products and services are designed to process many types of payments including debit and credit cards for Visa, MasterCard and others.

Trust. No matter what type of business you run, you must rely on the integrity, strength and ability of your business relationships.

Free Consultation

We can provide you with private and confidential consultation regarding any matters pertaining to your merchant account. We can analyze your overall processing and provide you with suggestions and solutions to avoid fraud and as a result minimize your losses.

Free Cost Comparison Rate Quote

WBS offers a No-Obligation, Cost Savings Rate Analysis and Guarantee. We will provide you with a detailed outline of the cost savings & service recommendations that can improve your efficiency and increase your profitability. We will review your current credit card processing statements, rates, and fees. We will assess your current equipment and processing set-up. No hidden fees. We will beat your current credit card processors rates and fees. WBS will pay you \$250 if we cannot beat your existing rates and fees.

24/7 Customer Service/Support

After installation, technical support experts are available 24 hours a day, 365 days a year. Our highly trained customer service professionals is available to assist you with any of your questions and concerns. Our staff continuously provides the highest caliber customer support for our merchant clients. We at WBS realize that all questions, whether big or small, are important and urgent to you.

Free 30-Day Equipment Trial

WBS will provide your business a credit card processing terminal to try out for the first 30-days. If you are not happy, you can replace the terminal with a terminal of your choice, no questions asked.

90-day Merchant Account Trial

Give us a try for 30-days before committing to a long term contract. Process with WBS for the first 90-days, and if you are not satisfied, we will waive your cancellation fees.

We Are Here 24/7 When You Need Us

Free Equipment Installation & Training

Our staff will provide your business with free installation of your new credit card equipment or POS software installation and training, or reprogram your existing equipment. We will make sure your equipment is properly installed and ready for use. We will provide this service over the phone, or if needed, we can have your sales manager visit your office to install your new equipment.

Local Representation for Service/Support

WBS provides your business with a local sales manager and/or sales representative that you can call on at anytime to support you and your employees. If you have problems with your credit card processing terminals or POS software, our sales manager will come to your location to help resolve any issues and provide employee training when needed.

Merchant Support Center

Want to discover more about payment types and how you can reduce fraud losses? Wondering what the difference is between on-line and off-line debit? You can learn about these things - and a whole lot more - in our Merchant Account Support Center, a set of tips and links to information designed to help you work smarter and safer.

PCI DSS compliance Training and Support

WBS is a participating business within the Payment Card Industry (PCI) supporting our clients in becoming compliant with the latest Data Security Standard (DSS) requirements.

In our ongoing efforts to raise awareness, WBS wants to help ensure that you are fully apprised of data security requirements and the actions you are required to take for compliance. To this end, following is a general, first-tier overview of PCI compliance. We've also included a list of resources available for additional information more specific to your business.

As a PCI compliant merchant services provider, WBS urges all of our valued customers to carefully review the information to assure your compliance with the established security mandates.

Securing your Network

If your office or retail location has internet connection, WiFi connection, uses POS software, or your computers are connected to a network or server, we will provide you the tools and resources to help secure your network in accordance with PCI DSS compliance standards.

Small Business Marketing Consulting

My name is Hamilton Wallace and I am a small business marketing consultant. I increase sales for small businesses. Online and offline, by attracting more of the right prospects and converting more of them into leads. I work on your message and your marketing methods. Now is NOT the time to do nothing. Do something! Do it with me, with someone else or do it yourself. But do it. And do it now!

Free Gift and Incentive Starter Pack

Work with a prepaid industry leader trusted by hundreds of the world's top retail brands, tens of thousands of merchants nationwide and financial institutions across the globe. Leverage our leading-edge product innovation, comprehensive consultative services and industry-leading system reliability to help attract new customers, drive incremental revenue, build your brand and lower your costs.

Online Statements / Detailed Transaction Reports

All WBS merchants will be able to access online statements, support, and detailed transaction reporting 24 hours a day, 7 days a week.

World Class Design & Marketing Services

Merchant Credit Processing
Marketing Services

Creative Vision Studio | www.creativevisionstudio.com

Our mission is to make small businesses look great. We do this by providing small businesses with web development and graphic design services that inspire you and enable you to emotionally connect with their customers.

A brand is, quite simply, the most important and most visible asset that a company can own. We strongly believe that to be successful in today's dynamic, turbo-charged, and high-tech marketplace, businesses must be able to manage and promote a clear, consistent brand presence in a world of constant change.

Trust. No matter what type of business you run, you must rely on the integrity, strength and ability of your business relationships.

Free Consultation

We can provide you with free consultation services regarding your next creative project including producing your next marketing campaign, logo, brochures, website, stationery, and more.

Creative Design Services

We love what we do. The passion we have for our work enables us to take ownership of our clients' projects. We constantly strive to deliver the highest-quality designs possible. Have you designed your own materials in the past but always felt something was lacking in your presentation? We can refine your current designs for even better results.

Merchant CRM Software

Does your business have inside or outside sales representatives, or do you have a customer service department? Our CRM software will enable you to manage all your employees, sales reps, accounts, leads, trouble tickets, and more.

Brand Identity

A brand is, quite simply, the most important and most visible asset that a company can own. We strongly believe that to be successful in today's dynamic, turbo-charged, and high-tech marketplace, businesses must be able to manage and promote a clear, consistent brand presence in a world of constant change. Brands are critical marketing assets, as important to your business as your product itself. Clear, consistent, moving brand messages encourage interest and improve recognition. We can help you enhance your branding efforts resulting in substantial benefits.

Website Design

Your internet presence can be one of the most valuable tools to your business success. Whether it's function is to generate sales leads, improve customer service, or to simply serve as an on-line brochure, it should be a priority to every business.

Design. Print. Copy. Web. Success.

Logo Design

Every business has one, that little graphic displayed on everything they produce. Although a logo may look just like a stylistic name, it can mean brand recognition to a company. A good logo helps a company have a clean, professional, polished look. The more clean, stylistic and original a logo is, the more chance there is that it will stand out from the competition.

Business Cards

The power of the business card is like a "billboard in the wallet" allowing you to advertise and connect with people every day. It allows you to join networking groups, chamber mixers, and more so you can gain new referrals and clients. Without a business card, you have an extra obstacle to overcome.

Corporate Identity, Branding

The initial lack of customers and cash flow often causes new business owners to put off designing a logo and marketing materials professionally "until they get a few clients" or "until they get started." Without professionally designed marketing materials, it will make getting those initial clients more difficult and may result in a business that will not succeed. At Creative Vision Studio, we provide the creative results so you can focus on building new customers and profits.

4-Color Process Printing

Creative Vision Studio is the perfect online printing company for all of your professional printing service needs. We specialize in affordable high quality printing, and offer a wide range of products including business card printing, catalogs, brochures, postcards, flyers, stickers, and much more. With 10 years experience and a strong commitment to value, you'll rest easy knowing that you aren't sacrificing quality for convenience.

Brochures

Showcase your company in full-color splendor. Create today and receive in as few as 3 days your own tri-fold format, full-color both sides, high-quality paper stock with aqueous coating.

Business Plan

The business plan is the single most important tool in raising capital for an existing business or starting and funding a new venture. The importance of a business plan cannot be over emphasized. In the end, the old saying holds true, If you fail to plan, you plan to fail.

Newsletters, Postcards, Flyers

These materials serve as a marketing vehicle to keep in touch with your existing clients, and keep them coming back for more products and services.

Website Video Intros

Whether you call it a Video Spokesperson, Virtual Spokesperson, Website Spokesperson, Flash Spokesperson, Spokesmodel, Walk on Video, Video Overlay, or just a Person on Website; you have come to the right spot. We shoot and process all of our videos on location, allowing us to give you that personal touch from start to finish.

Stock Photos, Illustrations, Images, Icons

Creative Vision Studio provides our clients with a worldwide social marketplace for royalty free stock images, allowing individuals and professionals to legally buy and share stock images and illustrations. We offer the largest image bank of free and affordable royalty free photos and illustrations perfect for any medium, web or print. Photographers and designers are constantly adding thousands of new photos and illustrations each day.

World Class POS Terminals/Software

Merchant Credit Processing
Equipment & Technology

Merchant Credit Processing Point-of-Sale Processing Equipment/Software

Credit Card Machines, Wireless, Supplies

Whether you're a financial institution, a retailer, a government agency, an ecommerce entrepreneur, or mail/phone order business, Merchant Credit Processing has a cost-effective, end-to-end payment solution that's right for your business.

Our credit, debit and smart card products are renowned for their fast, efficient performance, capturing payment information at the point of sale and quickly transferring it from the merchant counter to the payment network for approval. You can choose among counter-top, integrated and stand-alone payment terminals models, each offering support for a variety of payment options to fit into specific merchant environments.

Trust. No matter what type of business you run, you must rely on the integrity, strength and ability of your business relationships.

Countertop Payment Systems

From the operating system to point-of-sale payment and value-added applications, to back-end deployment and terminal management systems, WBS has advanced software solutions to meet the specific needs of merchants and acquirers everywhere. We also offer a variety of application development tools for the development community.

Wireless Terminals

For years the payment options for mobile merchants were limited to either cash or check. Today, wireless terminals have given mobile merchants access to the same authorization networks as retail businesses. This provides security and additional sales to merchants who previously had to handle cash or take the risk of accepting checks. Since wireless terminals work off of the reliable Verizon and AT&T/Cingular networks, merchants can process secure transactions virtually anywhere in the country.

Check Readers

Our check readers work seamlessly with most payment systems, allowing you to expand your customer's range of payment options, while reducing your exposure to fraud and bad checks.

Point-of-Sale Printers

Characterized by speed, efficiency and ease of use, our point-of-sale receipt printers work seamlessly with our payment systems to generate two-, three- and even four-part receipts. Choose from roll printers, thermal printers and sprocket printers to get the unit that satisfies your store's needs.

Point-of-Sale PIN Pads

Our PIN pads support a variety of key management techniques, including Master/Session and/or Derived Unique Key Per Transaction. We also offers PINpad plus products that are fully compliant with the PIN-entry-device (PED) specifications jointly issued by Visa® and Master Card.

Simple, fast, and affordable credit card processing for your iPhone

Get a free Credit Card Reader for iPhone or \$50 iTunes Gift Card when activating a new merchant account! Accept Visa, MasterCard, Discover, American Express Easy one-time set up; we'll even walk you through it over the phone Email beautiful PDF receipts, including optional customer signature Secure connection; Fraud protection with AVS and CVV2 Optional card swipe reader makes charges even easier. Fast over cell networks (Edge/3G) or wireless internet (Wi-Fi). Accept payment on iPhones, iPads, Macs, PCs, and Android devices with your Authorize.Net account.

Accept Credit & Debit Card Payments Anywhere, Anytime

CHARGE Anywhere® is the perfect Point of Sale (POS) Software for any merchant conducting business in a mobile environment. With CHARGE Anywhere, empower your Smart-phone to accept payments; transforming your everyday phone into a complete wireless Credit Card Terminal. Use your existing mobile device with your existing merchant account or bank through an award-winning PCI Certified Mobile Payment Solution.

POS Software Solutions

If you're using PCs to manage your business, our POS software is everything you need in a payment solution. Our complete POS software systems feature powerful Windows-based payments software, magnetic card-swipe, PIN pad, and built-in thermal printer makes it easy for businesses in North America to process payments right from a PC.

PC Charge Processing Software

PC Charge Pro is a powerful transaction processing software which allows all businesses to accept credit cards, debit cards, and checks. PC Charge Pro also has very strong fraud protection features. PC Charge Pro can reduce fraud and provide powerful performance at the point-of-sale. PC Charge Pro is effective under many different environments including retail stores, direct marketing companies, mail-order/ telephone order businesses or web-sites.

Retail POS Software

Retail Payment Pro (RPP) is a point of sale system for retail stores that will help increase efficiency and accuracy, lower operating costs and help you manage your inventory. The easy to use POS includes the features most desired by retailers, such as inventory tracking, credit card processing, cash management, customer loyalty, employee time clock and labor scheduling, and a detailed reporting interface to help them make smarter business decisions.

Point-of-Sale (POS) Hardware

Our POS vendors manufactures a complete line of Quality, Core Point of Sale Hardware - allowing you to get all your POS needs met by utilizing just one source! From Hi-Speed Thermal Receipt Printers to Dual Core All-In-One TouchPCs, our POS vendors implements the latest technological advances while safeguarding your investment with industry leading warranties and unparalleled support.

Pay-At-The-Table Solutions

While today's restaurant patrons increasingly choose to pay for their meals with credit, debit and gift cards, the guest and wait staff process for completing these transactions hasn't changed. As a result, paying for a meal in a full-service restaurant is more complicated, slower and more susceptible to fraud than the same transaction in any other retail or restaurant environment. Fortunately for restaurant operators, servers and guests, our solutions enables secure payment to occur at the point of service, whether at the table, car-side to-go, delivery or even the cashier counter.
